

## **PHOTOS WANTED FOR OUR WEBSITE**

We are seeking **digital photos** for two pages on our new website. Send me your digital photos showing your **IH/Farmall tractors, trucks, Scouts, Big Country, implements, IH built Cub Cadets, etc.** If you have lots of tractors, a group photo is preferred. Please include a brief description, your name and your city, town or village.

Also, we have a web page for showing photos of your **IH Collectibles**. This would include a wide variety of IH goodies not limited to toys, match folders, dealer brochures, pins, old photos, buttons, belt buckles, cans, boxes, pens, cast iron items, pencils, calendars, ash trays, rulers, watch FOB's and more. I know many of you have acquired some real treasures over the years. Now you can show them without even hauling them to a show.

### **Please note:**

An easy way to accomplish the proper description of your submittals is to actually name the digital picture with the description you would like to see. Please keep the picture description no larger than 100 characters including spaces between words. Use the medium quality setting on most digital cameras. We can't accept pictures that have file sizes larger than 150 kb.

Please be patient. Don't expect your pictures to appear on the website the day you send them in. They may need Webmaster tweaking. Also, the website pages are updated only once a month – around the first of the month. That's when new photos are added. Please send your photos to me at: [geneff79@frontiernet.net](mailto:geneff79@frontiernet.net)
